

# Sustainable Installation Trail & Award

The Clerkenwell OPEN Sustainable Installation Trail features sculptures which provoke conversation on waste within the commercial sector.

As a Sustainable Installation Trail participant we ask that you provide an overview of your design which outlines your concept and material specification.

**Please return this form and provide an annotated drawing or sketch of your design to [alys@designinsiderlive.com](mailto:alys@designinsiderlive.com) by Friday 27th May.**

Name:

Company Name:

What is the sustainable concept that your sculpture communicates:

Describe your design:

How do you intend to make your sculpture?

Tell us about the materials your sculpture is made from:

## Requirements:

- Communicates a concept discussing sustainability within the commercial sector.
- Free standing.
- 3 Dimensional.
- A minimum of 1.5 meters in height  
Comply with event health and safety standards.

**Award:** An award will be given to the installation which a panel of judges feel instigates the most engaging discussion regarding sustainability in the commercial interior sector. Presented at the closing event on **Thursday 8th September.**

## Sculpture Concepts:

- Showcase the sectors' successful reduction in waste of a specific material or resource.
- Highlight the need for the sector to address the waste of a specific material and build your sculpture from the waste material.
- Communicate how a particular working model is impacting waste either positively or negatively.
